

Sarthak. S. Gite

Full Stack Developer & AI Enthusiast

Balewadi, Pune (411045) | sarthakgite006@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

SUMMARY

AI & Data Science student and Full Stack Developer with hands-on internship and leadership experience in machine learning, front-end development, and global project management. Proven ability to lead international teams, deploy scalable data-driven applications, and build end-to-end user-focused platforms.

PROFESSIONAL EXPERIENCE

Twinmind AI (USA)

Remote

City Head

Nov 2025 – Mar 2026

- Spearheaded regional operations and local market strategy for an international AI tech platform, reporting to global stakeholders.
- Drove developer community engagement and technical collaboration initiatives to expand the platform's presence in the local market.

Codec Technologies

Pune, India

Project Head Intern

Mar 2025 – Apr 2025

- Led end-to-end execution of technology projects ensuring timely delivery, team collaboration, and alignment with organizational goals.
- Oversaw project planning, resource allocation, progress tracking, and stakeholder communication.

Codexintern

Virtual

Front-End Development Intern

Aug 2025

- Built scalable, user-centric web interfaces; translated wireframes into functional components using modern frontend technologies.
- Ensured mobile responsiveness and cross-browser compatibility across corporate digital applications.

NeuAi Labs

Pune, India

Intern

Dec 2024 – Jan 2025

- Developed a Customer Churn Prediction System using Python and ML models with feature engineering and hyperparameter tuning.
- Performed data analysis and visualization using SQL, MongoDB, Pandas, and Matplotlib for actionable business insights.

Techfest, IIT Bombay

Pune, India

College Ambassador

Sept 2025

- Represented Asia's Largest Science & Technology Festival; ranked in Top 2000 by managing peer coordination and campus event promotions.

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript, SQL
Web Development:	HTML5, CSS3, React.js, Node.js, Express.js, Next.js, Spring Boot
Databases:	MySQL, MongoDB, PostgreSQL, SQLite
Tools & Platforms:	Git, GitHub, Postman, Netlify, Vercel, Render, Power BI
Others:	DSA, RESTful APIs, Machine Learning, Data Analysis (Pandas, NumPy, Scikit-learn), AI Applications

EDUCATION

Savitribai Phule Pune University (SPPU)

Pune, India

B.E. in Artificial Intelligence & Data Science | CGPA: 8.62

Nov 2022 – Jul 2026

- Hands-on experience in AI, ML, data analysis, web development through projects, internships, and coding competitions.

PROJECTS

EduLeap AI | AI Assistant for Coaching Institutions

Building

- Built an intelligent educational ecosystem using vision-based multi-modal AI to extract timetable data from images and map course information to student preferences.
- Created an analytical dashboard tracking task completion with user authentication and export formatting (Excel/HD images).

Centralized Health Card System (CHC) | Live Project

Live

- Engineered a secure, cloud-hosted platform to consolidate patient health records into digital profiles; deployed via Vercel with cross-device responsive UI.

E-Commerce Platform | Live Project

Live

- Built a full-stack e-commerce application with product browsing, cart, checkout, and real-time inventory management; deployed on Vercel.

Task Management System

- Full-stack app with CRUD operations, secure RESTful API backend built using Spring Boot and MySQL for team task tracking.

Uber Ride Analysis | Data Analysis Project

- Analyzed ride data to identify trends in frequency, customer behavior, and traffic; visualized peak hours and demand using Power BI heatmaps.

IoT Based Virtual Doctor

- Designed a remote healthcare solution using IoT sensors to monitor patient vitals in real time and provide immediate health alerts.

Basti Ki Pathsala Foundation | NGO Website – Live

Live

- Designed a responsive, accessible frontend for a Pune-based NGO to boost digital outreach and community fundraising; hosted on Vercel.

Personal Portfolio Website | Live Project

Live

- Developed an interactive, responsive portfolio showcasing skills and projects with optimized asset loading; hosted on Render.
